### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Gallagher on 1/17/2007.

1. The application has been amended as follows:

**IN THE CLAIMS:**

Claim 2 is cancelled, and claims 1, 6, 10, 13, 18 and 21 are amended as follows.

Claim 1, line 9, deleted "and" after "...at least two links;"

Claim 1, line 10, after "...the packet" added -- ; **registering a next sequence number in a header of the packet for transmission of the packet through a selected link allocated for the service; and transmitting a next packet through a second link and transmitting a packet after the next packet through the first link.--**

Claim 2. **Cancelled** as requested.

Claim 6, line 8, deleted "and" after "...the received packets;"

Claim 6, line 11, after "...at least two links" added --; **registering a next sequence number in a header of the packet for transmission of the packet through a selected link allocated for the service; and transmitting a next packet through a second link and transmitting a packet after the next packet through the first link.--**

Claim 10, line 12, after "...transmitting the packet" added --, wherein a next sequence number is registered in a header of the packet for transmission of the packet through a selected link allocated for the service; and a next packet is transmitted through a second link and a packet is transmitted after the next packet through a first link.--

Claim 13, line 9, after "...packet is a to-be-received packet" added --, wherein a next sequence number is registered in a header of the packet for transmission of the packet through a selected link allocated for the service; and a next packet is transmitted through a second link and a packet is transmitted after the next packet through a first link.--

Claim 18, line 12, after "...among the plurality of links" added --, wherein a next sequence number is registered in a header of the packet for transmission of the packet through a selected link allocated for the service; and a next packet is transmitted through a second link and a packet is transmitted after the next packet through a first link.--

Claim 21, line 10, after "...packet is the to-be-received packet" added --, wherein a next sequence number is registered in a header of the packet for transmission of the packet through a selected link allocated for the service; and a next packet is transmitted through a second link and a packet is transmitted after the next packet through a first link.--

***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to disclose method for transmitting a packet through a plurality of links in a mobile communication system. The unique method steps include: *"registering a next sequence number in a header of the packet for transmission of the packet through a selected link allocated for the service; and transmitting a next packet through a second link and transmitting a packet after the next packet through the first link"*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M. Qureshi whose telephone number is (571) 272 3178. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Field Lynn can be reached on (571) 272 2092.
